## Proud to be a part of Startup India

We are getting noticed!

Yes, KPIED is now officially recognized as a Startup and is proud to be a part of Startup India. We are happy that Dept. of Industrial Policy & Promotion, Govt. of India, has endorsed that our innovative work practices have a potential for wealth creation!

This flagship initiative of the Government of India, under the leadership of PM Narendra Modi, is building a strong eco-system for nurturing Startups to drive sustainable economic growth. The Government through this initiative aims to empower Startups to grow through innovation and work processes. Their resolve reflects in the speedy and smooth application process. Thank you Startup India and DIPPGOI, we are thrilled to be on board this journey.

But, this happiness is not ours to share alone. This also means a lot for our clients too. You are now in trusted and endorsed hands, and we bring for you the energy and willingness to try something new. By partnering with us, an emerging entity, you are accelerating your growth and business decisions. With more industry alliances, we will be holding hands with more potential business opportunities for you. But above all, with and through us, you are harbouring the opportunity to participate in and witness the India's journey towards exponential growth.

We are confident about the promise of KPIED, and we are constantly trying to take it to the next level. There is much lined up for 2018, so keep watching this space.
